

Daniel (DJ) Richardson : DevSecOps Engineer

Erie, CO • 720-419-5539 • dj.b.richardson@pm.me <https://linkedin.com/in/dj-b-richardson>

Overview

10+ years’ experience in DevSecOps, HW/SW engineering, and product/project management. Proven record of leading cross-function teams, and delivering secure, reliable, and scalable automated systems.

Core Skills

Tools & Platforms	Leadership & Impact
CI/CD & IaC: GitLab, ArgoCD, Terraform, Ansible	Cross-Functional Leadership
Containers & Orchestration: Docker, Helm, Kubernetes	Stakeholder Communication & Mentorship
Cloud: AWS, DigitalOcean, Civo	Project & Product Ownership

Experience

Lockheed Martin | DevSecOps Engineer – Product Owner of Site Reliability (2020–Present)

- Lead DevSecOps team strategy, priorities, and execution for mission-critical ground systems.
- Established Site Reliability Engineering (SRE) subteam, standards, and incident readiness.
- Deployed microservices with Helm/Ansible on K8s; automated provisioning on AWS and vSphere.
- Designed CI/CD pipelines, GitOps workflows, and automated TLS lifecycle management.
- Created design and install docs for Space-to-Ground sites; coordinated across HW/SW/NW teams.

Promethean Hive LLC | Founder, DevOps & Full-Stack Engineer (2023–Present)

- Full-stack ownership: React/TypeScript frontend, Django Python backend, PostgreSQL DB.
- Integrated API suite; cloud-native CI/CD via Terraform, Kubernetes, and GitOps.

Audit Logistics | Senior Project Manager (2013–2018)

- Directed teams completing 75–95 projects annually, \$1.5M budgets, 5M+ lbs. shipments.

Education & Certificates

- **Dual M.S. Computer Science & Engineering Management** (in progress), Univ. of CO. Boulder
- **B.S. Computer Science**, Univ. of CO. Boulder

- **TS/SCI Clearance (Active)**
- **CompTIA: Security+ , Network +**
